

Mayor DeLorenzo's Statement:

For as long as I can remember, the Hasbrouck Heights Police Department has always been a well-respected law enforcement agency. I am very disappointed with the current circumstances. The President of PBA Local 102 along with the majority of the Patrol Division have asked for our assistance. I will do whatever is necessary to get the department on the right track. I assure you that I have full confidence that the officers will continue to perform their duties in a professional manner, protecting and serving our community, while we work to resolve these issues. To that end, I will seek authorization from the Council to contract with a professional police consulting firm to review department procedures and management practices in our Police Department.
